

NAFFCO

PASSION TO PROTECT

Vehicles
Division

AN INTRODUCTION TO NAFFCO

NAFFCO was founded in Dubai, UAE to become the world's leading producer and supplier of life safety solutions. By recognizing the importance and convenience of having easy access to multiple safety services, we became specialized by offering complete solutions under one roof for all types of high quality firefighting equipment, fire protection systems, fire alarms, addressable emergency systems, security systems, custom-made vehicles such as fire trucks, ambulances, mobile hospitals and airport rescue firefighting vehicles (ARFF).

With the most talented and dedicated employees from around the world, NAFFCO has over 2,000 passionate engineers and over 6 million square feet of manufacturing facilities. We are currently exporting to over 100 countries worldwide.

NAFFCO manufactures UL, FM, BSI & Global Mark approved products in our facility in consistent with International Standards UL-DQS, BSI certifies for the Quality Management System against ISO 9001. Our Environmental (ISO 14001) & Occupational Health & Safety (ISO 45001) Management Systems have been certified by UL-DQS. Our Trucks & Vehicles division has been assessed & certified for Quality Management System requirement for Aviation, Space & Defense organization (AS 9100) by UL-DQS.

Our success is driven by our passion to protect; our vision is to become the world's number one provider of innovative solutions in protecting life, environment and property.

ENGINEERING

NAFFCO's extensive experience of firefighting systems and applications acquired over the last 25 years has been instrumental in the establishment and rapid development of the trucks division.

The division is supported by our state-of-the-art technology and software allowing for extensive research and development into optimum configurations for maximum space utilization, engine power performance, on road efficiency and safety/security features. NAFFCO has a qualified R&D team to incorporate latest technologies and trends in the field.

These powerful in-house resources have enabled our engineers to simulate designs in both static and dynamic views while paying particular attention to load displacement to ensure a reliable vehicle both on-road and off-road depending on the required application.

MANUFACTURING

NAFFCO manufacturing facility has the latest technology, state-of-the-art machines (CNC machines, hydraulic shearing and bending machines, all types of welding machines - MIG, TIG, ARC, Waterjets, Laser cutters, thermoform etc.), And a complete machine shop that make us meet the needs of any production requirement.

NAFFCO has the ability to introduce the latest technological systems & equipment in the field, as our engineers and technicians are well qualified & experienced to produce quality products. The department is equipped with full-fledged testing facilities to test the equipment as per NFPA, EN, ICAO, KKK and International Standards & requirements, and to meet the customers specifications.

Considering the above facilities and excellence in engineering capabilities, NAFFCO can meet any challenges to produce bulk quantities of trucks.

QUALITY CONTROL

To empower customers to secure Life, Property and Business by delivering high quality and innovative fire protection solution using world class manufacturing process with the finest engineering technology.

NAFFCO is committed for working towards continuous improvement with the aim of meeting with customer requirements and expectations.

NAFFCO is committed to comply with requirements and continually improve the effectiveness of the quality management system.

A dedicated team of quality control department to coordinate material incoming/in process and final inspection in accordance with ISO-9000 procedures is also a remarkable asset of NAFFCO.

AFTER-SALES DEPARTMENT

- NAFFCO, not only offers a product, but also back-up what we sell with full servicing, maintenance and training options.
- We have a separate department totally dedicated for maintenance of Firefighting Systems and Equipment.
- We offer the service of our Engineers and Technicians round the clock (24 hours) for emergency requirements.
- Further, we also undertake annual and half-yearly maintenance contracts, which will ensure the smooth functioning of the various Firefighting System and Equipment throughout the year.

AIRCRAFT RESCUE & FIREFIGHTING VEHICLE ON CUSTOM BUILT CHASSIS

FALCON SERIES

- ARFF FALCON series are the right choice for airport firefighting and rescue; these vehicles are built to meet the requirements of fast intervention in case of emergency exceeding the applicable standard NFPA 414 and ICAO regulations.
- Chassis options American or European origin.
- Cabin is custom built with center, center right or center left steering, tested in accordance with ECE R29.
- Tank, cabin and body covers made of Glass Reinforced Polyester (GRP)/IPP/ All proven corrosion resistant material ABS.
- 9137 ICAO specified equipment based on airport category are available at request.
- Automatic Around the Pump Foam system. UL Classified provided as standard.
- NAFFCO developed narrow version of FALCON 6 of 2.5 Meters.

AIRCRAFT RESCUE & FIREFIGHTING VEHICLE ON CUSTOM BUILT CHASSIS

Model	Drive	Min. HP	Water Tank (L)	Foam Tank (L)	Fire Pump Capacity (LPM@10 bar)	GVW (T)
Falcon-4	4x4	500	6500	780	6000-10000	24
Falcon-6	6x6	650	12500	1500	6000-10000	36
Falcon-8	8x8	900	16000	1920	6000-10000	52

*Note - GVW values may differ based on equipments re-tested.
 - Conversion available upon request.

AIRPORT RESCUE & FIREFIGHTING VEHICLE ON COMMERCIAL CHASSIS

A COST-EFFECTIVE SOLUTION FOR AIRPORT FIREFIGHTING & RESCUE

- A cost-effective solution for Airport Rescue and Firefighting Vehicles, these units are built on commercial chassis from reputed manufacturers as Scania, Mercedes-Benz, MAN.
- Original chassis cabin is converted to crew cabin with right or left steering, tested in accordance with ECE R29.
- Tanks options of Glass Reinforced Polyester (GRP), Polypropylene or SS 316L
- ICAO specified equipments based on airport category are available at request.
- Automatic Around the Pump Foam system.
UL Classified provided as standard.

AIRPORT RESCUE & FIREFIGHTING VEHICLE ON COMMERCIAL CHASSIS

Model	Drive	Min. HP	Cabin	Water Tank (L)	Foam Tank (L)	Fire Pump Capacity (LPM@10 bar)
NF-ARFF-4	4x4	480	Double	4100	500	3,000-4,000
NF-ARFF-6	6x6	580	Double	9000	1080	4,000-6,000

MUNICIPAL FIREFIGHTING VEHICLES

DESIGNED FOR INTERVENTION MAINLY WITHIN THE CITY LIMITS

- Designed for intervention mainly within the city limits, NAFFCO municipal fire trucks are categorized as light (up to 12T GVW), medium (12 to 18 T GVW) and heavy duty (over 18 T GVW) Firefighting Vehicles.
- Chassis options as Scania, Mercedes-Benz, MAN, International, Renault, Iveco. Others can be used based on engineering assessment.
- Cabin can be single or double cabin subject to chassis selection.
- Tanks options of Glass Reinforced Polyester (GRP), Polypropylene or SS 316L
- Equipments are available upon request.
- Manual or Automatic Around the Pump Foam system being provided.
- Monitor with electric or manual control.
- High pressure hose reel with electric rewind available on selected models.
- NFMR series of municipal vehicles are prepared for any emergency situation. They are able to carry hydraulic rescue tools, electrical generator, power tools, SCBA, hoses, nozzles and many others. The bodyworks can be supplied in Aluminum or Polypropylene.

MUNICIPAL FIREFIGHTING VEHICLES

Model	Drive	Min. HP	Cabin	Water Tank (L)	Foam Tank (L)	Fire Pump Capacity (LPM@10 bar)	GVW (T)
NFM-40/4-SC	4x2	170	Single	4000	400	2000	12
NFM-60/0-SC	4x2	240	Single	6000	0	2000	18
NFMR-40/4-DC/AL	4x2	240	Double	4000	400	3000	18
NFMR-45/5-DC/PP	4x2	240	Double	4000	500	3000	18
NFM-60/5-DC	4x2	240	Double	6000	500	3000	18

NFM-120/12-SC	6x4	360	Single	12000	1200	4000	33
NFM-150/4-SC	6x4	360	Single	15000	400	4000	33

*Other Configurations available upon request.

INDUSTRIAL FIREFIGHTING VEHICLES

FOR PROTECTION OF INDUSTRIAL ASSETS

- For protection of industrial assets NAFFCO provides a complete range of vehicles able to carry large amounts of foam, dry powder and water. The chassis are provided with safety features as spark arresters and engine shut off valves, in line with the internal regulations of the industrial sector.
- Chassis commonly used are Mercedes-Benz, MAN, Iveco, International or Freightliner.
- Cabin can be single or double cabin subject to chassis selection.
- Tanks options of Glass Reinforced Polyester (GRP), Polypropylene or SS 316L.
- Equipments are available upon request.
- Foam systems are highly accurate balanced pressure or electronic injection type.
- Monitors with electric or manual control dual or triple agent can be provided.
- High pressure hose reel with electric rewind available on selected models.
- Water towers with heights up to 72 meters can be installed on selected models.

INDUSTRIAL FIREFIGHTING VEHICLE

Model	Drive	Min. HP	Cabin	Water Tank (L)	Foam Tank (L)	Fire Pump Capacity (LPM@10 bar)	GVW (T)

NAFFCO

SUPER DUTY

Ford

RESCUE AND RAPID INTERVENTION VEHICLE

NECESSARY FOR ROAD OR AIRPORT FAST INTERVENTION

- NAFFCO Rescue and Rapid Intervention Vehicles are specifically designed for the application necessary for road or airport fast intervention. They can feature extrication tools, firefighting systems water/ foam based, DCP or CO₂ well as medical equipments.
- Standard construction Aluminium modular technology, they are also available in full PP bodies.
- Chassis cabs or VAN type from reputed manufacturers : GMC, Ford, Mercedes-Benz, Iveco.
- Cabin can be single or double cabin.
- Tanks options of Glass Reinforced Polyester (GRP), Polypropylene or SS 316L.
- Equipments are available upon request.
- Normal pressure or high pressure firefighting systems can be installed.

RESCUE AND RAPID INTERVENTION VEHICLE

Model	Drive	Min.HP	Water Tank (L)	Foam Tank (L)	Fire Pump Capacity (LPM@10 bar)
NF-RIV-300	4x2 4x4	100	300	30	42 @ 100 Bar
NF-RIV-500	4x2 4x4	110	500	50	1500 @ 10 Bar

NF-RIV-2000	4x2 4x4	140	2000	200	1500 @ 10 Bar

**Other Configurations available upon request.*

HYDRAULIC ACCESS PLATFORMS FOR FIREFIGHTING

WHERE THE INTERVENTION REQUIRES ACCESS TO HEIGHTS

- Where the intervention requires access to heights, NAFFCO provides a full range of aerial platforms and turntable ladders that can reach up to 72 mtr. Height.
- The platforms are EN 1777 compliant and options of water / foam tanks, foam system, monitor are available. Can be customized for both municipal as well as industrial applications.
- Chassis options: Volvo, MAN, Iveco, Mercedes-Benz, Renault.

TURNTABLE LADDERS

Model	Drive	Minimum HP	Cabin	Working Height
NF-TTL-32	6 x 4	360	Single	32
NF-TTL-46	8 x 4	360	Single	46
NF-TTL-52	8 x 4	480	Single	52

* Water Towers up to 72 mtr available upon request.

HYDRAULIC PLATFORMS

HAZMAT VEHICLES

COMPLETE SOLUTION FOR HAZMAT OPERATION

- Hazmat Response Vehicles may vary in size and color, but, its mission always involves mitigation and the requirement to transport a lot of bulky equipment is imperative.
- To effectively do that our new developed hazmat truck with deep compartment storage facilities, storing the heavy and bulky equipment such as over pack drums, inflatable tents, environmental systems and other equipment required to be stored, for the hazmat or chemical hazardous areas, our unit will suit your needs.
- Each unit is particularly designed for the purpose and takes in consideration the special requirements of the customer.

DEFENCE/COMMAND VEHICLES

ANTI RIOT VEHICLE - ARMoured CABINS

- This car used for the purposes disperse the demonstrators and anti-riots it can be on a small chassis such as Ford or GMC or be on a large trucks, these trucks can carry larger quantities of water and anti- riot equipment, and all the aspects of an armoured car with surveillance cameras and control devices

COMMAND & CONTROL VEHICLE

- Suitably installed Broadband Communication System, capable of operating in remote locations, direct from the vehicle, without having to connect to external source.
- Advance CCTV monitoring device which is working in a daytime and night vision under all weather conditions.
- LCD screen wall mounted for the camera with recording device on the work station.
- Office and meeting room Equipped with all kind of office equipment (Computer, Printer, Fax ,Ext)
- Dash board will be equipped with all necessary devices.

ANTI RIOT VEHICLE

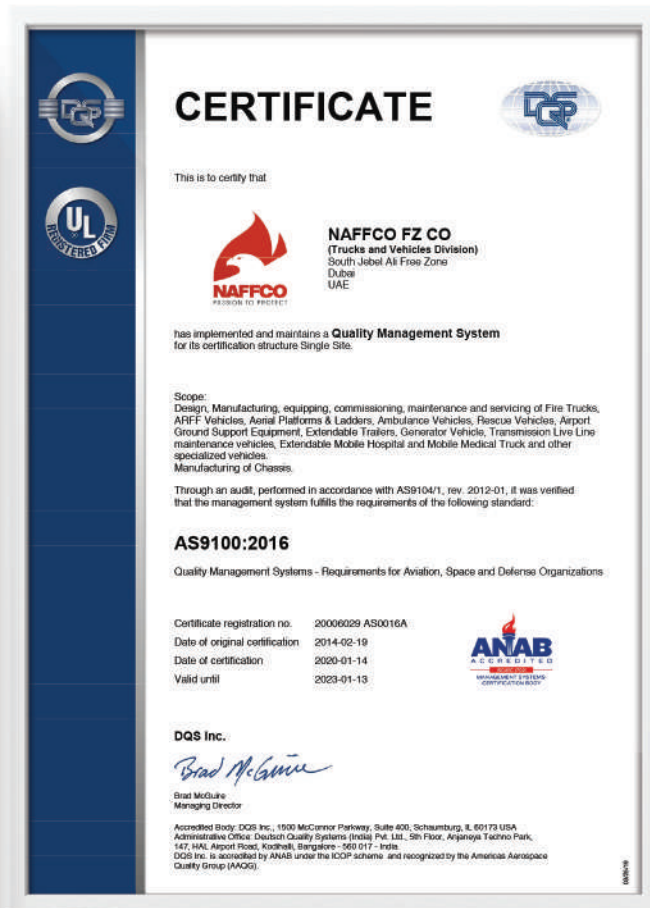

- Our Non - Armoured Ford Vehicles provide improved off-road handling with defence capabilities and armored body up to B6 level, it can enter in difficult zones to provide support and protection to the police or army personnel. Our "Custom-Made" vehicles can include a variety of equipments, protection systems, special shielding and ballistic protection according to international standards.

COMMAND/RESCUE VEHICLE

- Latest wireless communication devices connected to the Central Operation Control room 24/7.
- Advance CCTV monitoring device which is working in a daytime and night vision under all weather conditions.
- Customized Rescue equipment installed.
- Office and meeting room Equipped with all kind of office equipment (Computer, Printer, Fax, Etc).

CERTIFICATES

NAFFCO Vehicles Division maintain Quality, Environmental and Safety Management Systems. Compliance to AS 9100C ensures that there is a robust design process to meet safety and reliability requirements to the standards of the aerospace industry and that each phase of product realization, from planning to shipment, is tightly controlled for delivery of conforming product. It also ensures adequate Product Monitoring and Measurement that defines requirements for product validation prior to shipment.

CERTIFICATE

This is to certify that

National Fire Fighting Manufacturing FZ Co (NAFFCO)
Trucks & Vehicles Division
Plot No. S30201
Jabst Ali Free Zone
Dubai - 17014
UAE

has implemented and maintains an **Environmental Management System**

Scope:

The Environmental activities and supporting process, associated with the Design, Manufacturing, Equipping, Commissioning, Maintenance & Servicing of Fire Trucks, ATFV Vehicles, Aerial Platforms & Ladders, Ambulance Vehicles, Rescue Vehicles, Airport Ground Support Equipment, Extendable Trailers, Generator Vehicles, Transmission Live Line Maintenance Vehicles, Extendable Mobile Hospital and Mobile Medical Truck & other Specialised Vehicles.

Manufacturing of chassis.

Through an audit, documented in a report, it was verified that the management system fulfils the requirements of the following standard:

ISO 14001 : 2015

Certificate registration no.	50250955 UM
Excerpt from certificate registration no.	20002009 UM
Date of original certification	2015-01-15
Date of certification	2020-03-20
Valid until	2023-03-19

FORD CERTIFIED CHASSIS MODIFIER

SPECIAL PURPOSE VEHICLES

NEW DEVELOPMENT EMERGENCY VEHICLE

- Command units, rescue and incident command support units, canine carriers , hazmat trucks lighting vehicles or cash in transit units are only few of the custom built vehicles that NAFFCO is producing.
- Each unit is particularly designed for the purpose and takes in consideration the special requirements of the customer.

SERVICE VEHICLES

CUSTOMIZED & CUSTOMER SPECIFIC SOLUTION VEHICLE CONCEPT

ENGINE - PUMP TRAILERS

- Engine-pump trailers are ideally suited for supplying firefighting water to industrial and refinery plants - especially in harbour areas. With a special monitor equipped with in-line educator for mixing the foam directly with the running water, the hoses are stored on the trailer, protected from the sun and other environmental influences.

SIGNAGE VEHICLE

- Rescue vehicles always work under very high risk. With our LED Variable Message Signs mounted on the vehicles, we provide additional safety because the vehicles are visible from a long distance and this will increase safety level at hazard areas. We offer a wide product range of Variable Messages Signs and our systems allow to guide traffic, transmit traffic information and avoid traffic jam, With complete kit, with Laptop and complete set of programmable software.

LIGHTING VEHICLE

- Carries a metal halide/LED lamps that are powered by the on board generator. By lighting up the emergency scene it enables firefighting and rescue operations at night. And, the on board generator mounted on the vehicle turns this vehicle into an emergency power source during power failures, long-term lighting solutions for emergency response and utility vehicles.

MOBILE WORKSHOP

- Special robust design, practical and lightweight with the Storage Cabinets and Side Access for the equipments, the vehicle is ready to be furnished with all necessary tools required to carry out in the field, with a modular systems used in our designs, We "Know-How" to modify all types of vehicle to a mobile workshop and match the work or transporting environment you needs.
